As our Harvest for Hope approaches this week, today I pose this question: Are you going through life satisfied or do you find it common to be singing/thinking "I can't get no satisfaction"? Satisfaction is the actual state of being complete/full, a state of true enjoyment. Without satisfaction, we can become anxious, discontent, irritable, jealous, nagging, unhappy, and worrisome. The Bible, in Ecclesiastes 5:10, points out: "The one who love money is never satisfied with money, and whoever loves wealth is never satisfied with income." This too is futile. Everyone needs to realize our problem isn't a need for more, but we fail to recognize just how blessed and favored we are already. Admittedly, we may not have all that we want, and rather than complain about what we don't have, why don't we try to be more appreciative and give God some praise and thanks for what we DO have? If we/you do, then God can bless us with the gift of satisfaction. Remember my question? The truth is that ultimately, the way to find satisfaction is to be in a thankful relationship with God and the things He has made for us.
