During this season of Thanks-
giving and the upcoming celebration of Advent in which we recognize our blessings, I feel some added appreciation to Thomas Walters and Anna Hart is appropriate. Their hard work, gathering timber and brush with Hosanna residents in addition to leading the group with their multi-talented chain-sawing abilities is/was truly appreciated. As a result of their work, our property has undergone a positive facelift and has led our directors to make future plans to improve Hosanna's look while providing work time for Hosanna residents with our caring friends. Taking care of and properly treating one's properties and gifts truly defines a person and having outside help in a community setting is particularly beneficial. Thomas and Anna, that's why I feel you deserve some ongoing thanks. Your work continues to pay positive dividends, and primarily helps us remain proud to call Grubb Road, a residence with people from many backgrounds, a home we do love. May God Bless.
