Our van bears the slogan "independent and on the go" and last week the residents were just that! Connie piled six residents in the SUV and took them out to run errands! One resident needed a haircut, several of them needed to pick up a few things at Walmart, everyone wanted to go out for lunch, and Connie needed to do some grocery shopping. The residents had loads of fun just being out and about with one another doing the kinds of things that we take for granted on a daily basis.

This week's activities:

Tuesday, March 7,

We're going to Dairy Queen after dinner to listen to the Gospel Jam Band! Bring \$\$ or your gift card if you want a treat.

Next week: Monday, March 13, Faith House residents are going to Park's & Rec's "Night of Laughs" You will eat dinner early and then head out at 5:30

Another great art class with Brooke from the Hart Gallery. Residents chose between a collage or decoupage a container for storing small items. Tissue paper & magazines of all kinds were torn/cut up, either for the color or the image itself. Most chose the container but Terry, ever the renegade, chose to do a collage. Upon seeing it, I knew immediately that it was images evocative of Wyoming, a place near and dear to Terry's heart.
