Today's issue is the result of a conversation with Carter Care-a-van driver Greg Bibbs, who is also a pastor, about his recent message entitled "Power of Praise". I agreed that praising the Lord is the most significant means of offering deserved thanks to the One who continues to give. I think we are all clear on Greg's message: "It is better to give than to receive." In other words, as you go through life, life passes you by with expectations and hope for blessings, miracles, or special personal favors. You need to make sure you give Him some deserved thanks first. **ECR**
