## This week's activities:

Monday, May 8, HUMC Solo ladies bring food and fun to Hope House.

Left. Brooke from the Hart Gallery gives Sherolyn some advice, while right, the finished results of making candles infused with essential oils. Did someone say Mother's Day is approaching??

Susan, our intrepid executive director, hard at work on her laptop.

Come check out the new art work by the offices. A removable wall mural by *My Wonderful Walls* will be used to recognize some of Hosanna's generous donors.

Sarah spent some time enjoying the St. Francis meditation garden and visiting with Connie recently. What might they have seen? How about a toad hiding in the violets or some beautiful rhododendron blooms!

Looking for Connor or Linda? If he's not sweeping or she's not playing cards, chances are, they're up at Hope House playing pool!

Don't forget Mother's Day is SUNDAY, May 14. Get with Connie ASAP if you need to get a card in the mail!

Though they aren't living in this bird house, look for the family of blue birds up by the gardens.

Always concerned about the cats and roused by Orlando's impassioned cries of "murder!", Katie checks on Marley and the chipmunk he had captured.
