Board Member Steve Sherman spent a few days at Hosanna recently putting up adjustable shelving in our “party” closet, Hope’s freezer pantry, and Faith’s kitchen closet. They look great and we LOVE them!! It’s so much fun to be organized!! A big thanks to Steve for his efforts and to the Sherman-Hsu Family Foundation for the funding to pay for the materials.

I’ll begin today’s issue with an annoying observation: “Nobody really cares if you are miserable, so you might as well always remain happy!” I don’t have to explain that although happiness is understood as a state of likely fortune or being happy in the presence of good. However, there are those people who find happiness in evil actions and events. Finding joy in unheavenly conditions is simply far too common. Therefore it is my true suggestion that we try to achieve happiness while remaining kind to all involved. In doing so, it requires that we pay close attention to another thought: “Kindness truly makes you one of the most beautiful persons in the world, no matter what you look like.” You can be sure of this fact. As I close today’s message, let me emphasize—life is a blessing, a miracle, and a wonderful experience to many. But, more realistically, with life’s many questions and decision-making events, life itself is a choice. I am asking you to make it one filled with happiness..
