HAPPY BIRTHDAY to

SHEROLYN MILLER 7/31/16

Today's column comes after receiving a host of compliments for my writing and the true significance it has on others' lives. I am particularly proud to have been recognized and thanked by Mrs. Lisa Morgan, the director of the Chattanooga Area Brain Injury Association and a friend to Hosanna. My goal in writing this column is to help my readers feel they remain on earth for a reason, and to be thankful to HIM while remaining a believer in HIS promise of eternal life.

With that stated, Lisa, and all of my readers, you should understand the following: life can, to some extent, be defined as a series of meaningful memories. We need, therefore, not to anticipate or expect them, but be sure to be thankful while realizing they are better when we ourselves create them. So, I recommend that we make sure to create all we can with a sense of positivity. If we do, happiness is the end result. Please, let me know if you have a better idea.

Work on our St. Francis Meditation Garden continues! Located behind Faith House, this was an unattractive, somewhat barren strip of grass/weeds. Now, thanks to a vision and some hard work, it is an inviting area for visiting with fellow residents, having a cool drink in the afternoon, or just contemplating the wonders of nature around us. Thanks to board members Beth Williams, Carolyn Rice, and Suzanne Barel for donating five new benches. Thanks to our newest board member, Tim McClung, for assembling them with the assistance of Faith House resident Orlando Manghane. Thanks to Judy Barker for donating some healthy hostas to start it all off. And thanks to Susan for her hours of toil in the hot sun spreading mulch and planting shade plants!

Happy faces above at a recent trip downtown for the Nightfall Concert.
