As Fall approaches and the first days of August are behind us, here are my thoughts on what the rest of the month offers:

## AUGUST AWAITS

Continual changes create a truly beautiful sight,  
Aided by blossoming colors of peach, pink, and white.

The rolling valley's beauties are hard to believe -  
Proof of God's unending love sent for us all to receive.

Gorgeous leaves cover a well-colored ground.  
God's precious, so plentiful animals easily found.

Safety provided during storms shows His care is sincere;  
Multiplied with newborn life sent this time of year.

Helping us to realize this positive August thought:  
In God's beautiful creation His love is brought.
