Residents enjoyed a night at the Lookouts recently, including a photo op with Louie the Lookout and board member, Barry Teague.

Today, I will relate the similarity of living happily at the Hosanna Community to the ongoing challenges of church leaders in keeping members in union. Interestingly, they both find themselves questioning the possibility of having 100 percent of their members giving their best in an attempt to reach their highest goals. Looking back a few thousand years to the beginning of the church, it began to grow as they became unified in purpose—out of both necessity and choice. We have the same needs and choices facing us at Hosanna, today. The board and executive needs to be commended in their efforts of bringing us all together to appreciate God's generosity and our ability to enjoy friends while living independently. We all have a purpose and Hosanna continues to help us live happily as we determine what it is. I'd like to simply say "thanks!".
