Last week with the Hart Gallery": designing an anchor.

As school is starting a new year, people everywhere are getting ready for a little change. Isn't it ironic that the more things change, the more they stay the same? I simply want you to know that from this issue forward, I will not apologize or make excuses for any content you will read. Sure, my issues may be slightly opinionated, spark debate, or change the way you do and/or view things, but that is exactly what I hope will happen. I will remain appropriate in the content of my writing, and I'm quite confident in the morals I'm trying to relate. I ask now for one favor: get yourself ready for some thoughtful lessons. They are coming, and soon! ECR III
