Friday, June 29. Ed at Faith House. 6pm.

**Words to ponder:
Cause a little bit of summer is what the whole year is all about.
—John Mayer**

Today, my Hosanna Community friends, I am going to do something a little different. Yes. Rather than presenting you with suggestions and my opinion on how to create happiness/an improved well-being, I am counting on your ability to take advantage of making up your own mind. A forced on “quick fit” solution does not work as well as a heart-felt personal decision when helping improve others’ lives. Therefore, I’d like for you to take a serious look and think about as best you can, wherever you may be, a quote found in Jim Rohn’s book entitled, “The Treasury of Quotes”. Jim’s business associates, family, and friends claim he truly “has a world-wide impact”. Jim wrote, “Be sensitive to the plight of others. You have to know about the tragedies as well as the triumphs, the failures as well as the successes.” In conclusion, let’s realize that life is a choice and it is determined by your attitude. Your words have a powerful impact. They may affect you, co-workers, family, friends, and individuals in your presence during all hours at Hosanna Community. How you present yourself, react in certain situations, and wish to be remembered is, simply put, directly up to you. Good luck! ECR
