Connor's Corner Today I am going to address what our Executive director, Susan DiStefano made clear her plans for the positive future of Hosanna Community residents, when reminding us that our mission is to live independently while still treating others with kindness and respect. I'd like to make a true suggestion. To reach the goal of harmony and togetherness, it requires determination. That word carries impressive meaning. To determine is to "make a decision about" or "to come to amend". With that being said, let me reiterate a portion of Hosanna's purpose, "...encouraging and enabling each other to grow—toward their greatest potential physically, socially, and spiritually." I strive to be an active contributor to my personal well being and help with responsibilities and tasks needed for our home's stability. As a result of the loving care of staff, Hosanna continues to open the door to independence for those with special needs. We all must thank the Lord for his constant miracles and the blessing of residents and volunteers whose willingness to share makes our community possible. The best time to set of a new discipline is when the idea is strong. Let's work to be our best selves! ECR
