Rogers & Keller with military personnel at the Chickamauga Battlefield Visitor Center.

What are your Thanksgiving plans?!
Let a staff person know if you will be at Hosanna or not!

As we end the first full week of November, I hope to keep your mind on the celebration of Thanksgiving Day, rather the retail bombardment of early Christmas trees and "special low prices" on gift ideas. I urge you not to focus on getting more for less. I encourage you to give thanks for your many blessings. One blessing that I feel deserves admiration and appreciation for its existence, and if you are reading this text, then you should also, is Hosanna Community on Grubb Road, in Hixson, TN. I'd like to offer some details on what I feel others need to know.

I think our mission statement might look a little like this: "As a nonprofit residence for adults with disabilities, our purpose is to fully realize our many skills and talents, along with true potential, to create the best living facility possible while also providing a positive future for both our residents and team members. We will stand together in appreciation of the highest quality, most caring and loving support facility designated for those with special needs."
