Hosanna's Valentine's Day celebration was made especially sweet, thanks to a special dinner topped off with a chocolate fountain!

## **SOMETHING TO CONSIDER**

Think about this: A catchy little motto or slogan defines almost everything. Fraternities, hospitals, institutions, retail stores, sports teams and more can be remembered by specific phrases.

Admittedly, the words: blindness, brain aneurism, brain injury, cerebral palsy, deafness, heart attack and stroke, which are dreaded pronouncements to people in general, are understood by people associated with Hosanna Community. These types of diagnoses can call for treatments that the body was never meant to endure while hoping to extend/prolong the miracle of life. Yes, it may mean the end of one's life. So, at Hosanna we witness friends and suitemates face hardships and struggles in their hopes of healthy happiness.

I am a proud 19-year resident of 6410 Grubb Road, and I'd like to offer my thoughts on a well-deserved 2020 motto:

## **Hosanna Community:**

A group of survivors who proudly fight to positively and thankfully carry on.
