Friends + skill + suspense + laughter + a little luck = a robust round of Jenga. Connor, Keller, Ian, Tina, Sherolyn - even Susan D. joined in the classic game of keeping tower blocks from tumbling.

I need your attention, please. Situations that require the use of "common sense" and vigilance in order to sustain life should be taken seriously. Let me be real clear: Mayor Andy Berke declared a State of Emergency for the City of Chattanooga, acting in the very best interests of everyone's health and safety. Hosanna Community Executive Director Susan DiStefano's recent restrictions on residents and staff is also a decision based on the care of others. It may be frustrating. But if your goal is to remain alive, then realize the coronavirus can certainly end your life. We have no cure, medicine or vaccine to combat the virus' spread. We do know that "social distancing" can slow the spread of COVID-19. Not leaving the property on Grubb Road and not allowing visitors inside our houses is warranted. Rest assured people of many abilities and positions are working diligently to help literally millions of people. Sure, many events and programs have been cancelled, but make sure to follow the advice of those who care so you are still able to participate when these events are rescheduled.
