Velvet Art was a popular creative activity this week!

I feel certain that you, readers of my text, look at life with a positive attitude and an expectation of good things to come. In addition to faith, hope and prayer, positive encouragement from others helps to consistently inspire and uplift us. Interestingly, that is exactly what Kim Taylor Henry has done for me and hopefully, as you read on, for you as well. Her revelations of walking where Jesus walked in "Journey to the Holy Land" is written as a spirit-lifting piece in "Daily Guideposts 2020." She travels through Jerusalem to understand His heart, onto Gethsemane where Jesus prayed the night he was betrayed, through Calvary where Jesus was crucified and buried, past a place by the Sea of Galilee and to the Valley of Armageddon in Israel where "the battle on the great day of God Almighty" will occur (Rev. 16:14). Kim remains assured that life will truly unfold according to God's perfect plan. Striking me most significantly were Kim's prayers related to each visit. I do not want to take her words out of context, but I do hope you can relate these to the world today. Think of these two: "Lord God, may I never wait until crisis strikes to turn to You" and "Father God, when I face battles of all kinds, may I remember the unexpected peace of Armageddon, a reminder that You have it all under control."
