HAPPY BIRTHDAY, SHEROYLN MILLER!!!

Repeat This: The caring staff of Hosanna Community continues to prove they will remain willing to offer help in any time of problem or trouble. From the onset of the coronavirus epidemic, management has had our best interests in mind, and with their positive encouragement has helped us remain strong. The supervised and necessary "lockdown" has caused a little frustration, but it certainly is better than the alternative of possible infection. Admittedly, the whole world is in a state of uncertainty, and this often results in people behaving rudely and selfishly. The positive management team at Hosanna has kept us safe and busy, even with the failure of our air conditioning system in these hot, miserable July temperatures.

I suggest prayer for us all during this ongoing epidemic. I also remind you: Prayer needs to include thankfulness, along with any personal needs or requests. All in all, we at Hosanna should be thankful we are able to be our best because of a caring and encouraging staff.

(Thank You, Connor - from the Hosanna Staff!)

Residents christen a funky piece of yard art/bird bath. They created it with terra cotta planters they painted and stacked on top of each other. It sits at Hope House near the driveway.
