I ask that every resident of Hosanna Community consider how blessed we are. No, I don't need Bible verses to reiterate/relate my point. What I mean refers to something that recently occurred to our Assistant Executive Director, her immediate and on-going response to an unsuitable situation, and our failure to offer any aid in the form of care or compassion. This deserves change.

We may appear respectful of Beth Moran as she works hard and finishes tasks that Susan has assigned her and as she works to make certain that our morning exercise and afternoon activities are properly completed. We appreciate that she verifies that residents' medicines are available and taken consistently. We watch her keeping peace between quarreling residents, making certain the bus has ample gas, the air conditioner works and runs well, all as she keeps watch on her daughter's Covid concerns.

Then the woman throws her back out, causing her to leave the campus, get a back brace and return to work for the whole day.

Where is our love? Almost in tears after each step, it shows: Yes, we are blessed.

Blessed
