'Dough-n't' you know it's almost Valentine's Day?!
We took advantage of a mild-temperature day this week to work outside making donut-shaped cards.

More open air heart art

UNO Card Game Tournament. Michael is the reigning champ!

Getting Down: Fancy moves at a dance party.

I want you to think about your long-term plans involving God. More directly, let's focus our attention on understanding the need for us all to dismiss a power of the will, and realize our time should be appropriately spent concerned about the will to care for and love others. To be honest, let's take a close look at how we all seem to be currently obsessed with short-term gains of money, profits, popularity and fame, rather than the eternal promises of God's goodness, love and absolute mercy.

With that noted, I hope we all do know ... to think about short-term goals is not a way to benefit a positive long-term hope. Jesus' entire life on earth was filled with a ministry defined by teaching the truth of relying on God's never-ending goodness. To follow Jesus leads to His promise of abundant life. God offers us the choice to make. I can only suggest a wise decision of long-term focus.

I do wish you the best.
