Yummm ... Nothing like a crêpes break!

Today, my Hosanna Community friends, I express my thankfulness for God's love in helping us overcome all problems and situations, while asking forgiveness when need be. I pose this question to you, written in Matthew 6:27 in the Holy Bible: "Can any one of you, by worrying, add a single hour to your life?"

Why, then, are close to 50% of our blessed hours spent losing time with worrying? Let me help you realize how absurd, pointless, and ridiculous it is to try to alter something we have NO control over. If it's a habit of yours to recall the good and even the bad in your life by simply reminiscing, I suggest you remember, mainly ... God knew/knows what is, what was, and what will be. We are living and will continue to survive, by relying on - and not worrying about - His compassion, eternal love, and willingness to forgive those who ask Him. It is offered, we need not worry, but accept it, and do as told. I close with this truth:

Why worry? It is all out of our control.

Sherolyn is expecting a great harvest from the pepper plant she added to the Hosanna garden. She got the plant from the YMCA. Thanks for sharing!
