I believe it isn't difficult for anyone associated with Hosanna Community to fully understand what we receive out of our faith, and how we protect it, is a direct result of the amount of sincere care we put into it. Therefore, I feel we need to put our lives into a more deliberate frame/mode. In fact, I've listened to preachers and teachers, and also read this suggestion: "Let's try not to be insincere, but intentional."

This is what this means to me, and I strongly agree: When we/you choose to care for others in special need, being made in God's image, let's make sure we do our complete tasks to our best ability - deliberately, intentionally and sincerely. Your goal, I pray, is to make your purpose known and well respected. I wish you the best.
