Holiday Manicures

With the celebration of the birth of Jesus just days away, when we share our happiness without hesitation, I feel we can also share some appreciation and thanks to Hosanna Community staff members for their continued compassion and love proven in all situations, as our blessed caregivers.

### Connor's

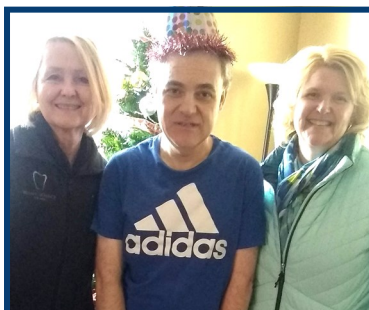

Corner

In fact, we all should extend our thanks for the blessings of attention and care we are frequently offered. Admittedly, God has blessed many people - family, friends and professionals - with helping hands and loving hearts. We are blessed with some that He spent more time with, giving them a little more affirmation in their ability to care.

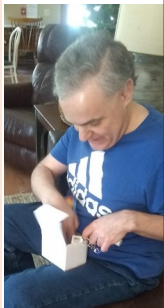

The courage to care for others is a heavenly gift we all should understand. I ask you to thank Hosanna Community's caregivers for their care for our own well-being in person and in prayer. I think you'll be happy to end the year on a thankful note.

A Charlie Brown Christmas - Hosanna style!

Thank you to Dr. Brian Schenck's staff for bringing birthday gifts by for Tommy. Such a thoughtful surprise!

Thanks for visiting, Aunt Margaret! So great to see you!!
