My Hosanna friends, I ask you to consider this belief today: I feel we look, think and worry too much about our difficulties/problems rather than admitting God's goodness is offered and available to those who expect it. In other words, mercy is an absolute part of God's character.

Corner

As we are made in His image, we do not need to repeatedly request or convince God into giving us a blessing of mercy. No ... What we need to do is receive it with some appreciation and respond with thankfulness. The Bible is God's great instruction guide that answers life's greatest problems concerning our lives and destiny. Understanding the Bible, then, is necessary to achieve the goal of a happy, satisfied life. It is my advice, therefore, for you to make a commitment to reading the Bible on a regular basis. You can also refer to Bible readings and studies to answer any questions you may have. All in All, I believe happiness can be found, and you can strengthen your faith with regular readings of the Word of God.
